If a penalty is imposed and the owner or person responsible for managing the land fails to comply, the commissioner shall cause the weeds to be controlled. If the commissioner, deputies, or the agents enter the land and control the weeds, the actual cost and expense of cutting, burning, or otherwise controlling the weeds, along with the cost of serving notice and special meetings or proceedings, shall be paid by the county and together with the additional assessment to apply toward costs of supervision and administration, be recovered by an assessment against the tract of real estate on which the weeds were growing as provided in Section 317.21. Any fine imposed shall be recovered by a similar assessment.

The Hardin County Integrated Roadside Vegetation Management program shall control noxious weed infestations and other problem vegetation in county road rights-of-way which may threaten public health, cause economic loss or effect safe travel. Costs to control noxious weed problems associated with physical changes in the right-of-way, (i.e. over spray, excess tillage, untimely mowing). Soil erosion by wind and water promotes annual and perennial weed growth on agricultural land and in road rights-of-way. Landowners and operators are encouraged to be good land stewards and utilize erosion control methods such as conservation tillage, field borders, buffer strips, and grassed waterways
